ABOUT

Full-Stack Web Developer who is passionate about solving real-world problems, continuous education, and collaboration.

Technical Skills

- HTML5
- CSS/BOOTSTRAP
- GIT
- VS CODE
- JAVASCRIPT
- JSON
- JQUERY
- API/AJAX
- NODE.JS
- CRUD OPERATIONS
- MYSQL
- SEQUALIZE
- HEROKU

Soft Skills

- COMMUNICATION
- PROBLEM SOLVING
- TIME MANAGEMENT
- TEAM-ORIENTED

Experience

Jan. 2019 – Present

CLINICAL LABORATORY COORDINATOR *Donor Network of Arizona*

Maintain and build relationships with supply inventory vendors. Facilitate and adhere to all clinical audits in accordance with AATB, OSHA, EBAA, FDA regulations and internal policies. Coordinate, train, and lead clinical staff in environmental monitoring and testing of all clinical areas. Organize and manage the equipment program and supply inventory for Tissue Recovery operations. Onboard and train all incoming non-clinical staff within the Tissue Recovery Services Department.

Jan. 2018 – Jan. 2019

TISSUE RECOVERY COORDINATOR *Donor Network of Arizona*

Team Leader within the Tissue Recovery Services Department. I managed a small team of three to four individuals to carry out the surgical procurement of human tissue for transplant.

Feb. 2016 – Jan. 2018

TISSUE RECOVERY TECHNICIAN *Donor Network of Arizona*

Assisted the Team Leader with the procurement of human tissue for transplant, while adhering to all regulatory standards. Maintained cleanliness, sterilization, and readiness of all surgical instruments.

Education

Aug. 2020 – Feb. 2021

Full-Stack Web Development

University of Arizona:
Coding Bootcamp

Project: [Quizzical](#)

Collaborative project between three classmates and myself. Our goal was to create a Full-Stack Web Application that allows users to create quizzes, take quizzes, and track user progress for each quiz.

[GitHub Repo](#)

Project: [Burger Express Logger](#)

Using node.js, express-handlebars, and MySQL – this application lets input a burger they want to eat, then choose if they want to eat it or not!

[GitHub Repo](#)

Project: [MySQL Employee Tracker](#)

CLI application that allows a user to manage their business. Users can add/view/remove departments, roles, and employees.
